1. Definitions and Abbreviations

In addition to definitions and abbreviations in the General terms, the following shall apply to the Agreement with regards to the Services covered by these Special terms:

Term	Definition
Company Super User	User from a given User organisation with extended privileges and duties related to the Magnet JQS Service. For details refer to section 8.1.
HuRi-only	A subset of Suppliers only using the Service to do human right assessments based on being nominated/requested to do so by another User organisation.
HuRi Reference Group	The decision-making body governing the human rights assessment types within the Magnet JQS Service
Supplier	A Supplier (as defined in the General terms) that uses the Service for providing assessments related to own qualification as Supplier.

2. Service

2.1 Description

Magnet JQS (hereafter called "Service") is a supplier register and a service for qualification of Suppliers.

The Service allows:

- (i) Suppliers to register and assess own organisation.
- (ii) User organisations to source, screen, qualify and monitor both existing and potential Suppliers in accordance with their respective qualification and procurement requirements.

For more detailed descriptions of the Service see www.offshorequalific.no/magnetjqs.

2.2 Access management

Privileges and access rights are controlled by the Company Super user.

2.3 Support

Refer to description of the Service's support at www.offshorequalific.no/magnetjqs.

2.4 Service level

2.4.1 Availability

The goal is that the Service should be available at all times, except for during standard maintenance windows as described below or otherwise as set out in the General terms.

2.4.2 Standard Maintenance Window

Standard Maintenance Windows (planned maintenance) are used for carrying out technical and functional updates.

- Technical updates: Typically performed monthly, with the goal of not affecting the availability of the Service.

- Functional updates: Performed in relation to releasing new functionality in the Service. Maintenance notifications are published on the Service login-page and/or in e-mail to the Users minimum 7 days in advance.

2.5 Data management

2.5.1 Data sources

Company information available in the Service originates from following sources:

1. Each individual User organisation.

Provides information limited to own organisation.

2. Creditsafe Norway AS

The Service passes on credit and business information from Creditsafe Norway AS.

Regarding content or quality of this information, whether expressed or implied, the information has been compiled from sources which Creditsafe Norway AS has deemed to be reliable at the time the material was compiled.

However, Creditsafe Norway AS cannot guarantee at any given time the reliability of the sources or the reliability and completeness of the information, and it is not possible to exclude the possibility that there may be errors or omissions in the information. Information providing details of companies based outside Norway is provided on a subject to availability basis and may not always be available, and the countries from which information is available may vary.

Creditsafe Norway AS information included in the Service is not intended to represent the sole basis for the User organisation's business decision. It is the User organisation's responsibility to make an overall assessment of the basis that the User organisation itself deems to be sufficient for its business decision. On this basis, Creditsafe Norway AS nor Offshore Norge accepts no liability of any kind for the economic result of the use of the credit and business information or for any loss incurred due to the User organisation's reliance on and/or use of the information.

3. Trusted Third party news sources

Provides relevant company news.

4. Audit providers

- Provides published audit reports.
- Sources for parsed information are specified within the Service user interface.

2.5.2 Data sharing principles

All information populated into the Service, regardless of source, is available for all User organisations enrolled into the Service, with following exceptions:

- Verification process results (reports and actions plans) will by default only be available for Operators and User organisations represented in HuRi Reference Group.

3. Service fees

The agreed annual Service fee for the provision of the Service is:

- 5700 NOK
- *For HuRi-only Suppliers no fees apply.*

Additionally, the terms in the General terms section 5 – "Service fees" applies.

4. Processing of personal data

Terms in the General terms section 6 – "Processing of personal data" applies.

The Magnet JQS Privacy Policy is available at www.offshorequalific.no/privacy.

5. Security

The terms in the General terms section 7 – "Security" applies, with following additions:

- The Service uses the Authentication Service to provide secure log-in and authentication services. Special terms for the Authentication Service is included in the General terms section 4.

6. Termination

Terms in the General terms section 9 – "Termination" applies, with following additions:

- Upon termination the User organisation will be set to an "Inactive" state
- With respect to clause 9.6 in the General terms (data deletion or retention), data will be retained as the Service acts as an archive solution.
- User organisations onboarded as "HuRi only" users, will be automatically offboarded after 2 years from the day being onboarded. Offshore Qualific will not send any notifications concerning the termination.

7. Offshore Qualific's additional obligations

Terms in the General terms section 14 – "Offshore Qualific's general obligations" applies with following additions:

- None

8. User organisation's additional obligations

Terms in the General terms section 15 – "User organisation's general obligations" applies with following additions:

8.1 Company Super User

Each User organisation must appoint and maintain a Company Super User, acting as the User organisation's overall Service administrator. These responsibilities include:

- Being responsible for the company's administration of users and content in the Service
- Having the authority to act as main contact towards Offshore Qualific concerning the User organisation's use of the Service.
- Ensure that all information registered into the Service is correct, ref. section 8.3.

8.2 Verification

Each User organisation approves that it could be subject to external reviews and auditing processes. This includes, but is not limited to, verification or audits of capability assessments, management systems, products and services.

8.3 Correct information

Each Supplier shall ensure that all information registered into the Service is correct. This shall be ensured by doing ad-hoc updates when required, in combination with a mandatory yearly review.

The Supplier acknowledges that incorrect and/or missing information, and failure to update and review content will lead to that it will no longer be able to search for other Suppliers and their products and services within the Service until information have been provided and/or updated.

8.4 The User organisation's use of data from the Service

The User organisation must not sell, transfer, lease, distribute, commercially exploit or otherwise make any information obtained via the Service available to, or to be used to the benefit of, a third party. The User organisation is also not permitted to include information such as credit and business information in any product or service that the User organisation is providing its customers.

8.5 Use of credit information

The User organisation accepts that credit information concerning own organisation are made available for other User organisations allowing the Service to fulfil its purpose as described in article 2.1.

9. Governance

The Service is governed in dialog with the Operators, using Offshore Qualific's governance model.

10. Additional provisions

None
